

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Specifications of Quality

Our own laboratory observations of melting points and boiling ranges and other purity criteria are given, wherever possible after each chemical named in our new list. Our chemicals will not fall below these specifications of quality.

Stock

1300 fine organic chemicals are available for laboratory, research, and university uses.

Prices

In many instances selling prices of our chemicals have been reduced. These reductions are shown in our new list.

Send for our new list. Its purity specifications are invaluable.

EASTMAN KODAK COMPANY

Research Laboratory

ROCHESTER, N. Y.

MARINE BIOLOGICAL LABORATORY WOODS HOLE, MASS.

INVESTIGATION—Entire Year

Facilities for research in Zoology, Embryology, Physiology, and Botany. Seventy-six private laboratories, \$100 each for not over three months. Thirty tables are available for beginners in research who desire to work under the direction of members of the staff. The fee for such a table is \$50.00.

INSTRUCTION—June 28 to August 8, 1922

Courses in laboratory instruction with lectures are offered in Invertebrate Zoology, Protozoology, Embryology, Physiology and Morphology and Taxonomy of the Algae. Each course requires the full time of the student. Fee, \$75. A lecture course on the Philosophical Aspects of Biology and Allied Sciences is also offered.

SUPPLY DEPARTMENT—Open the Entire Year

Animals and plants, preserved, living, and in embryonic stages. Preserved material of all types of animals and of Algae, Fungi, Liverworts and Mosses furnished for class-work, or for the museum. Living material furnished in season as ordered. Microscopic slides in Zoology, Botany, Histology, Bacteriology. Catalogues of Zoological and Botanical material and Microscopic Slides sent on application. State which is desired. For catalogues and all information regarding material, address

GEORGE M. GRAY, Curator, Woods Hole, Mass.

The annual announcement will be sent on application to The Director, Marine Biological Laboratory, Woods Hole, Mass.

ANNALS OF BOTANY

Edited by

DUKINFIELD HENRY SCOTT, M.A., LL.D., D.Sc., F.R.S.
Lately Honorary Keeper of the Jodrell Laboratory, Royal Botanic Garden, Kew

JOHN BRETLAND FARMER, D.Sc., M.A., F.R.S.
Professor of Botany, Imperial College of Science and Technology, London

FRANCIS WALL OLIVER, M.A., D.Sc., F.R.S.
Quain Professor of Botany, University College, London

and

ROLAND THAXTER, M.A., PH.D.
Professor of Cryptogamic Botany in Harvard University, Cambridge, Mass., U.S.A.

ASSISTED BY OTHER BOTANISTS

CONTENTS, JANUARY 1922

- The Moisture Relations of Terrestrial Algae. I. Some General Observations and Experiments. By F. E. FRITSCH.
- Anatomical Structure of the Roots of Barley. By VIOLET G. JACKSON.
- Some Observations on *Isoetes Drummondii* A. Br. By T. G. B. OSBORN.
- Observations in Malaya on Bud-rot of Coco-nuts. By A. SHARPLES and J. LAMBOURNE. With Plates I-VII.
- On the Fossil Genus *Sporocarpon*. By R. C. MCLEAN. With Plates VIII-X.
- Some Experiments on Action of Wood on Photographic Plates. By HELEN STUART WILLIAMSON. With Plate XI.
- Studies in the Physiology of Parasitism. VIII. On the Exosmosis of Nutrient Substances from the Host Tissue into the Infection Drop. By WILLIAM BROWN.
- The Flowering Curve of the Egyptian Cotton-plant. By JAMES ARTHUR PRESCOTT.
- Note: Abnormal Flowers in *Eranthis*. By W. B. TURRILL.

NOTICE TO SUBSCRIBERS

Change of Price

As from January, 1921 (Vol. XXXV, No. 137), the subscription price for four numbers is 40s. (foreign postage 1s. 6d. extra), or 45s. for the volume bound in cloth. Cloth cases may be obtained, price 5s.

The price of future single volumes (bound in *cloth*) will be 65s. net, and of single parts 15s. net. The prices of existing volumes and parts are now *net*, and volumes will be supplied in cloth bindings when existing stocks (with morocco back) are exhausted. But subscribers who wish to continue the present binding are asked to communicate with MR. MILFORD.

London, E. C. 4

Professional Advancement Service

THE PROFESSIONAL ADVANCEMENT SERVICE seeks to aid men and women in botany and related subjects in securing such positions as they may desire, and to offer to heads of departments, or directors of laboratories, experiment stations, or other institutions an opportunity of making known the vacancies they seek to fill.

THE METHOD OF THE SERVICE consists in publishing in the American Journal of Botany a brief notice stating the training and experience of the applicant or the requirements of the vacancy. Each person using the Service is designated by number and his identity may be learned on application to the Business Manager of the American Journal of Botany. A list of eligibles and open positions is kept, and inquiries are referred to the advertisers who are mentioned or seem best suited to the requirements stated. The Professional Advancement Service may thus have the opportunity to mention a man for a desirable position or a promotion a number of times during a period of several months. The charge for the service is \$2.00 for each case for one year or less. The notice regarding qualifications offered or desired will be published at frequent intervals, but not more than ten times.

Address: The Business Manager, American Journal of Botany, Brooklyn Botanic Garden, Brooklyn, N. Y.

No. 40. Ph.D. (eastern university), June, 1921, broad training in zoology, physiology, chemistry, and bacteriology, besides botanical sciences (morphology, pathology, mycology, cytology, physiology). Teaching experience in eastern universities, and in land-grant college. Recommendations of the best description as to abilities in teaching and research.

No. 41. Professor of Botany (Ph.D., 1909) with fourteen years teaching experience, nine in the present location, wishes a change of position. Special interest in Physiology and Pathology. Teaching with ample time for research, or full time research in fungous nutrition especially desired.

No. 43. Botanist, possessing B.A. and M.A. degrees from a leading university, desires position in Eastern college, university, or collegiate institute. Is interested chiefly in Morphology, Systematic Botany, and Ecology. Has eleven years' experience in college teaching and has published several books and papers on botanical subjects.

No. 44. Botanist, B.S. and M.S. from a university, desires college or university position in botany after June 10, 1922. Specially interested in ecology and taxonomy. Four years' teaching experience in college, including one year in a state university as acting assistant professor of botany. Member Botanical Society of America and Ecological Society of America.

No. 45. Botanist, Ph.D., with thirteen years' experience in teaching and administrative activities, desires a change of position offering opportunity for both teaching and research, and financial betterment. Has taught morphology, dendrology, physiology, mycology and plant pathology; good technician; especially interested in dendrology and physiology, with several publications in these fields; can handle large classes.

No. 47. Graduate, University of Amsterdam and Agricultural College. Broad training and experience in plant breeding, plant physiology, genetics, economic and general botany. Eastern and western American teaching experience as Professor. Studied several years extensively in various institutions in England, France, Germany, Holland, Sweden, Norway, Denmark, Switzerland, Belgium and Italy. Formerly Scientific Director of private Plant Breeding Station, High class recommendations. Desires position in University or *private* enterprise.

BROOKLYN BOTANIC GARDEN MEMOIRS

VOLUME I—DEDICATION PAPERS

CONTAINING 33 CONTRIBUTIONS; PAGES 1-521; PLATES 1-28;
TEXT FIGURES 41

TABLE OF CONTENTS WILL BE MAILED ON REQUEST

The papers contained in this volume were presented April 20-21, 1917, either in person or by title, at the Scientific Program, which formed part of the Dedication Exercises on the occasion of the completion of the Laboratory Building and Plant Houses of the Brooklyn Botanic Garden.

PUBLISHED JULY 6, 1918

Price, \$3.50 plus postage. Weight, 4 lbs. Remittance should accompany all orders.
Not offered in exchange

“Interesting Neighbors”

**Is a Good Book For The Naturalist To Read
To The Children**

It is the sort of writing that the small boy and girl relishes so keenly. It tells about bees, bats and butterflies, trees and flowers—the natural beauties and phenomena that attract and delight the child as they also instruct.

82 Life-like illustrations. Cloth, \$1.50. By Prof.
Oliver P. Jenkins (Stanford University).

BOTANICAL SOCIETY OF AMERICA

Reorganized 1906, uniting the Botanical Society of America (1893), the Society for Plant Morphology and Physiology (1896), and the American Mycological Society (1903).

OFFICERS FOR 1922

President: HENRY C. COWLES

University of Chicago

Vice-President: MARGARET C. FERGUSON

Wellesley College

Secretary: I. F. LEWIS

University of Virginia, University, Va.

Treasurer: IRVING W. BAILEY

Bussey Institution, Harvard University

Councilors:

N. L. BRITTON

New York Botanical Garden

J. C. ARTHUR

Purdue University

C. E. ALLEN

University of Wisconsin

Any one actively interested in botanical work is eligible for membership. Candidates for membership must be recommended by three members, not members of the Council, on blanks to be obtained from the Secretary.

The annual dues are \$5.00, including one subscription to the AMERICAN JOURNAL OF BOTANY. Candidates proposed for membership, and approved by the Council, may receive one copy of the JOURNAL at \$4.00 per year pending their election at the winter meeting of the Society.

A Fair And Frank Way To Buy Your Greenhouses

You and I know full well that salesmen have a way of putting the best foot forward, so to speak. In which particular, ours are quite like the rest. They honestly believe we build the best that's built.

Their belief, however, is not based so much on what we have told them as on what they have seen of our houses and our way of doing things.

What they really sell is their confidence in Hitchings & Company.

After which the buyer himself sells the greenhouse to himself.

The shortest short cut to that point of satisfaction, is to go and see some Hitchings houses and talk with their owners.

With that in mind let us send you names of some nearby houses.

We will gladly go with you, however, that is as you may incline.
